

# FEMA seeks feedback on the draft of Emergency Management Guide for Senior Officials

IAEM

FEMA is seeking feedback on the draft "[Local Elected and Appointed Officials Guide: Roles and Resources in Emergency Management](#)." The document provides an executive-level introduction to emergency management concepts and principles for local senior officials. It identifies local senior officials' roles and responsibilities for incident emergency management before, during, and after disasters. The draft guide also explains how to access resources. FEMA will host a series of 60-minute webinar sessions to provide an overview of the draft guide and gather feedback from whole community partners. The sessions will include facilitated discussions with stakeholders to help improve the existing draft. FEMA seeks input -- especially real-world case studies -- that can be incorporated into the guide. Advance registration is required to participate in the webinar sessions, and it is on a first-come, first-served basis. To register, click on your preferred session below:
